REVIA REINFUSE MASK™

Overview

ReVia ReInfuse Mask™ is an advanced hydrogel facial treatment featuring a Revitalizing & Brightening DNA Complex, niacinamide, hydrolyzed collagen, hyaluronic acid, and a comprehensive amino acid complex. Designed for use as an in-office adjunct treatment and for at-home maintenance, this mask supports visible skin revitalization, radiance, and hydration.

The hydrogel matrix ensures consistent, full-face contact for maximum cosmetic delivery while providing an immediate cooling, soothing experience for patients.

Mechanism of Action

Revitalizing & Brightening DNA Complex (PDRN / Sodium DNA)

Polydeoxyribonucleotide (PDRN) is a bioactive DNA-fraction ingredient used in aesthetic medicine to support the appearance of skin recovery and vitality. In this cosmetic formulation, Sodium DNA helps:

- Support skin renewal and overall skin appearance
- Promote a refreshed, revitalized complexion
- Enhance skin conditioning and hydration retention

Niacinamide

A clinically recognized, multifunctional cosmetic active that helps:

- Improve the appearance of uneven skin tone
- Enhance skin radiance and reduce dullness
- Support skin barrier function
- Minimize the appearance of enlarged pores

Hydrolyzed Collagen

Provides surface hydration, improves skin softness, enhances moisture retention, and contributes to smoother-looking skin texture.

REVIA REINFUSE MASK™

Amino Acid Complex

A broad spectrum of skin-identical amino acids that support the skin's Natural Moisturizing Factor (NMF), hydration, barrier conditioning, and overall skin resilience.

Key Ingredients

- **PDRN (Sodium DNA)** — Revitalizing & Brightening DNA Complex
- **Niacinamide** — Brightening, tone-evening, barrier support
- **Hydrolyzed Collagen** — Surface hydration and skin softness
- **Sodium Hyaluronate** — Deep hydration and moisture retention
- **Amino Acid Complex** — NMF support and barrier conditioning

Clinical Indications & Applications

Excellent following:

- Hydrafacial® treatments
- Dermaplaning
- Microneedling / RF Microneedling
- PRP facial procedures
- Brightening facial protocols
- Cosmetic maintenance and hydration programs

**Apply after completion of the procedure when appropriate per the provider's clinical protocol.*

Clinical Benefits

- Boosts radiance and improves skin luminosity
- Firms and improves elasticity appearance
- Refines pores and supports barrier function
- Delivers immediate and lasting hydration
- Supports the appearance of a brighter, more even complexion
- Enhances patient recovery experience and satisfaction post-procedure

REVIA REINFUSE MASK™

Suggested Protocol

Professional In-Office Treatment

- Cleanse skin thoroughly.
- Apply ReVia ReInfuse Mask™ for 20–30 minutes.
- Remove mask and massage remaining essence into the skin.
- Follow with ReVia reparative serum for enhanced hydration and results.

At-Home / Home Care

- Use 1–3 times weekly or as directed by the skincare professional.
- Apply to clean skin and leave on for 20–30 minutes. Tap in remaining essence.

PRO TIP: For enhanced results, layer with a ReVia reparative serum to support skin hydration and radiance.

Formulation Profile

- **Capacity:** Net Wt. 0.98 oz. (28 g) | 1 Facial Mask per pouch
- **Efficacy:** Brightening, Firming, Hydrating
- Paraben-Free | Fragrance-Free | Sulfate-Free | No Animal Testing | Dermatologist Tested
- Designed & Developed in the USA | Made in Korea
