REVIA RECOVERY MASK™

Overview

ReVia Recovery Mask™ is an advanced hydrogel facial treatment formulated with a Repairing & Smoothing Peptide Complex, an 8-form Multi-Molecular Hyaluronic Acid Complex, antioxidants, and skin-conditioning bioactives. Designed for use following aesthetic procedures, it delivers intensive hydration, supports the appearance of smoother and healthier-looking skin, and helps improve the patient recovery experience.

The hydrogel matrix ensures maximum skin contact for optimal cosmetic ingredient delivery, while providing an immediately cooling and soothing treatment experience.

Mechanism of Action

Copper Tripeptide-1 (GHK-Cu)

A well-recognized biomimetic peptide in aesthetic skincare, Copper Tripeptide-1 supports:

- Skin conditioning and surface repair appearance
- Collagen-supporting activity
- Improved appearance of firmness and skin rejuvenation
- Overall skin texture and quality

Acetyl Hexapeptide-8 (Argireline®)

A topical neuromodulatory peptide that helps improve the appearance of:

- Dynamic expression lines and fine facial wrinkles
- Smoother-looking skin texture
- Skin surface relaxation

8-Form Multi-Molecular Hyaluronic Acid Complex

Eight complementary forms of hyaluronic acid work at multiple skin depths to:

- Deliver immediate and long-lasting moisture replenishment
- Improve skin suppleness and plumpness
- Enhance barrier hydration
- Support visibly healthier-looking skin

REVIA RECOVERY MASK™

Antioxidant & Barrier Support

The formula incorporates Gentiana Scabra Root Extract and other antioxidant bioactives that help:

- Reduce the appearance of environmental stress
- Support skin comfort during and after procedures
- Improve moisture retention
- Promote a healthy-looking complexion

Key Ingredients

- **Copper Tripeptide-1** — Skin conditioning and firmness support
- **Acetyl Hexapeptide-8** — Expression line smoothing
- **8-Form Multi-Molecular Hyaluronic Acid Complex** — Multi-depth hydration
- **Betaine** — Cellular hydration and moisture balance
- **Gentiana Scabra Root Extract** — Botanical antioxidant and skin-soothing support
- **Hydrolyzed Glycosaminoglycans** — Skin matrix support and hydration

Clinical Indications & Applications

Excellent following:

- Microneedling / RF Microneedling
- PRP facial procedures
- Laser treatments
- Chemical peels
- Hydrafacial® treatments
- General skin hydration and recovery protocols
- Weekly home maintenance between procedures

**Apply after completion of the procedure when appropriate per the provider's clinical protocol.*

Clinical Benefits

- Intensive post-procedure hydration and recovery support
- Deep skin repair support through biomimetic peptide technology
- Boosts elasticity appearance and skin suppleness
- Calms and soothes stressed or environmentally compromised skin
- Supports smoother, firmer, healthier-looking skin
- Enhances patient comfort and satisfaction during recovery

REVIA RECOVERY MASK™

Suggested Protocol

Professional In-Office Treatment

- Cleanse skin thoroughly.
- Apply ReVia Recovery Mask™ for 20–30 minutes.
- Remove mask and gently massage remaining essence into the skin.
- Follow with ReVia reparative serum if desired.

At-Home / Home Care

- Use 1–3 times weekly or as directed by the skincare professional.
- Apply to clean skin and leave on for 20–30 minutes. Tap in remaining essence after removal.

PRO TIP: For enhanced results, use post-procedure or in combination with a ReVia reparative serum.
